# Atlantic Flyway

Male Mallard duck (top) and female Mallard duck (bottom). Mallards stop by in Tripps Run and Four Mile Run in Falls Church in the Fall and Spring. Some may stay for the summer. (from U.S. Fish and Wildlife Service Image Library)

Great Blue Herons (left) and Great Egrets (right) depend on their visits to the wetlands preserved at Huntley Meadows Park in Alexandria. Some of these are even spotted in Falls Church City along our streams!

(from U.S. Fish and Wildlife Service Image Library)
